COMPANY PROFILE

THE FLOOR BEGIN WITH... MAIYER CRAFT

PRIDE IN OUR WORK

Established since 2009 with the objective of providing a ONE STOP center for everything associated with flooring for the contractor, house owners, architects, consultants as well as housing developers. Specializing in Manufacturing, Trading, Distribution & Project Implementation making Maiyer Craft as a leader in Flooring Industry. This is driven by today's competitive environment to further improve the way we do business in an effort to provide customer with high quality products and unparalleled services.

VISION

To bring green and innovative technology to every building and flooring industry.

MISSION

We are committed to lead the construction and flooring market by transforming the traditional method of processes to a greener, healthier and safer technology through bringing in world latest and innovative machinery, tools and equipment to the construction and flooring industry.

OUR SERVICES

Manufacturing,
Trading & Distribution,
Project Implementation,
Training & Seminar & Expo.

100% ETHICAL PROCESSES

SATISFACTION

A MESSAGE FROM OUR FOUNDER

"Responsible in Our Service"

RESPONSIBLE IN OUR SERVICE

Maiyer Craft primary objective is to serve the market with the latest technologies for the Flooring Industry. We are committed to lead the market by bringing in the world's most innovative and advance flooring machinery, tools, equipment as well as solutions to serve the Flooring industries in this region.

This is made possible via vast network and collaboration with many top world-wide branded suppliers who are leaders in their respective fields.

These leaders constantly research and develop new products to meet the ever-changing demands of the industries whilst a 'greener' environment.

GRINDING EXPERT

➔ Greyline Series

HTC Greyline™ is an equipment line focused on three main applications: Floor Preparation / Coatings Removal, Concrete Grinding & Leveling & Wood Refinishing

➔ Duratiq Series

HTC Duratiq has set a new standard for reliability, precision and control. A combination of intelligence and raw power. With more than 100 new features, solutions and details.

➔ Start and Grind

HTC is introducing a new assortment of smaller grinders and dust extractors for professional use. With carefully engineered and user-friendly solutions for those smaller grinding jobs

ALWAYS THE RIGHT MIXTURE

MIXING PADDLES FOR BITUMEN, SCREED, PLASTERS, GROUT, PAINT, MORTAR, CONCRETE, TILES ADHESIVE

➔ Perfect MIXING RESULTS

With the right mixing technology or with the right mixing machine, lump-free and residue-free mixtures are no longer a problem for you.

➔ Easier to TRANSPORT

How many mortar buckets need to be lifted and carried all day long on construction site? . Make this heavy work physically easier by move your material directly to the point of application.

➔ Simple POURING

Accurate pouring without physical effort. The pouring spout on the bucket ensures that the liquid material is poured cleanly and exactly where required.

➔ Save valuable TIME & MONEY

Time is clearly a critical factor on many construction sites. Mixing jobs can be done three times faster by using a Collomix Mixer Technology, than by using an ordinary mixing drill.

POWERFUL MACHINERY AND FIRST-CLASS SPECIAL TOOLS FOR REMOVING, PREPARING AND INSTALLING FLOORS

Floor Covering Removal:
The six versions of the legendary Stripper make light work of the otherwise tedious removal of old flooring.

Substrate Preparation:
Powerful grinding and sanding machines prepare the floor for easy and quick installation.

Flooring Installation:
Special machinery and tools make flooring installation easier and faster. For the sanding of wood flooring, WOLFF offers power and a perfect result.

THE RIGHT SOLUTION FOR EVERY SURFACE

REPAIR AND MAINTENANCE EXPERT OF SURFACES MADE FROM WOOD, PLASTIC, STONE AND METAL

→ Flooring and Stairs

Whether oiled, waxed or solid wood treated with clear lacquer, whether laminate, linoleum, cork or even vinyl.

→ Ceramic Holes

Holes and chips on tiles, stone and ceramics can be removed quickly with our new-developed Ceramic Filler – and that without any drying or curing time.

→ Tiles, Natural and Artificial Stone

Ceramic Filler is very helpful especially in difficult cases like e.g. for tiles on underfloor heating, in showers, with large paving tiles or, at on-site installation, when spare tiles are no more available.

→ Furniture and Wood Surfaces

Optimally tailored to the different requirements, situations and also to different surfaces like solid wood, veneers and artificial surfaces

→ Edge Repair

Ensuring very good results and easy to apply even on edge surface
